

Agricultural farm for sale

Kitogani, Zanzibar

-6.286865, 39.439776

This 8000 sqm farm is located in Kitogani, a small town between Paje and Makunduchi. The land was formerly used as a mushroom growing and processing site and is currently used as a farm and camp site, this gives an existing idea on what to do with this farm. The big advantage of this farm is it's already under the company and is a ZIPA approved project, which means an easy take over by buying a company share. Welcome and do not hesitate to contact us for further details.
